

Gosport's High Street Heritage Action Zone project aims to re-establish the rich pedigree of the town's twice weekly markets. We aim to help Gosport Market once more be celebrated as a thriving street market and attraction. We want to see it attract visitors from across the local area drawn by its themed markets offering locally grown produce, crafted goods and programmed events that might include music, performance and displays of vintage cars and motorbikes. Moreover, we want to see Gosport Market become an example for 21st century UK Street markets/fairs and contribute to the overall physical and economic enhancement of the town centre.

However, we can't do this alone. By taking part in this questionnaire you are helping to create a clear picture of what Gosport Market will look like in the future and help us make it happen.

Have your say!
